For this reason we deal with an absolute accuracy, all the phases of research, production and putting on the market, in its entirety, just like, the training and aftersales service to our customers.

Our competitive strategy is based on the foundation of innovation, vanguard and quality. **abril et nature** products arise as a consequence of our cutting-edge research, based on the use of an assortment of highly effective active ingredients. **abril et nature** products, it brings together trend, quality and effectiveness, by dint of our dedication and effort.

ADVANCED HAIR TECHNOLOGY

HAIR COSMETICS REINVENTING

At the end of 1998, abril et nature was born with the idea of revolutionizing the world of the **hair cosmetic industry**.

Respect, professionalism and desire to constantly improve, are the fundamental principles that are added to the **creativity and innovation** to achieve a **product of maximum quality** able to surprise and satisfy our customers.

These principles form the basis on which our organization has developed its quality management system.

The basis of the quality system of **abril et nature s.l.** regarding the development of its activities of manufacturing and marketing of cosmetic products, it is based on:

- ▶ The guidelines for **good manufacturing practices of the organization**, in accordance with the UNE-EN standard ISO 22716: 2008.
- ▶ The **quality management system** of the organization, in accordance with the UNE-EN ISO 9001:2015 standard.
- ▶ The **environmental management system** of the organization, in accordance with the UNE-EN ISO 14001: 2015 standard.

OUR FACILITIES

All manufacturing processes are carried out in our factory of 4000 square meters located in Barcelona on Mediterranean coast.

All of our products are done entirely in clean-rooms **environment classified as ISO 8**. In these clean-rooms, an **atmosphere free of contaminating particles**, is created through a filters system and flows for the air inlet and outlet . The atmosphere is controlled at all times so that environmental factors such as **temperature, humidity, internal pressure and absence of external contamination**, are optimal to ensure the **quality and safety of our product**.

Likewise, **all the enclosures that house the clean rooms** (walls, floors, ceilings, doors) are **constructed with materials of smooth**, non-porous surfaces, and adequately sealed to avoid any contamination during the production process and comply with the requirements of **good practices manufacturing**.

These facilities are periodically **subjected to tests to verify the purity of the air in clean-rooms**, based on the concentration measurement of particles in air, to determine their classification as ISO 8, according to ISO 14644-1: 1999.

HAIR SUNSCREEN

Sunscreen 200 ml.

UVA and UVB sun radiation breaks down the disulphide bonds holding the various keratin chains together. Hair is damaged and weakened. Sun rays cause a significant degradation of colour, both in natural and dyed hair. Salt water dehydrates the hair. Chlorine in swimming pools damages the keratin chains, eliminates the hair's lipid layer and affects its colour.

To solve this problem, abril et nature has developed two multi-protective hair products: Nature-plex Hair Sunscreen, based on:

An stabilized UVA, UVB and IR sunscreens blend, of oil type, with an excellent tolerance on skin and mucosae.

Cystine bond complex: active ingredient creating di-sulphide bonds. Unique active ingredient which re-connects broken disulphide bonds inside the keratin fiber.

Rose hip oil, shea butter, hyaluronic acid, stem cells plant culture extract, caviar extract, rich in vitamins A, D, E and B12.
